## 3D Systems Brings Latest 3D Content-To-Print Products And Services To EuroMold

- Explore Complete Production To Consumer Line Of 3D Printers
- Experience 3D Authoring Content Creation, Capture And Cubify Apps
- Purchase Stunning Art Like Smartphone And Tablet 3D Accessories

**ROCK HILL, South Carolina –October 29, 2012 - [3D Systems](#) (NYSE:DDD)**

announced today that it plans to bring its latest suite of 3D content-to-print products and services to EuroMold. This global exhibition takes place in Frankfurt, Germany between November 27 – and 30, 2012 at Messe Frankfurt, in Hall 8, Hall 11 and the breezeway between Halls 11 and 9.

3D Systems plans to showcase a series of interactive, hands on exhibits that include its latest [ProJet® personal](#) and [professional](#) 3D printing systems, its [production 3D printers](#), its leading [Alibre](#) and [Rapidform](#) CAD, reverse engineering and inspection tools and its comprehensive [Quickparts](#) European on-demand parts services.

3D Systems, in partnership with DEMAT, plans to feature its latest Cubify.com consumer experience including tablet friendly Apps, Cubify Invent CAD, and its [award winning Cube®](#) consumer 3D printer. Visitors are encouraged to come to the Cube Café for an espresso served in a 3D printed cup and purchase stunning FreshFiber 3D printed smartphone and tablet accessories or amazing Jewelry and collectibles.

“We invite all EuroMold attendees to experience our entire suite of 3D content-to-print tools,” said Cathy Lewis, Vice President, Global Marketing, 3D Systems. “Our expanded portfolio delivers the right products and services that empower professionals and consumers to create and make quickly and affordably throughout their ideation to production process.”

**About 3D Systems Corporation**

3D Systems is a leading provider of 3D content-to-print solutions including 3D printers, print materials and on-demand custom parts services for professionals and consumers alike. The company also provides CAD, reverse engineering and inspection software tools and consumer 3D printers, apps and services. Its expertly integrated solutions replace and complement traditional methods and reduce the time and cost of designing new products by printing real parts directly from digital input. These solutions are used to rapidly design, create, communicate, prototype or produce real parts, empowering customers to create and make with confidence.
